Prepared by the children's mother · Other parent: David

Nature of this document — read first

- This report organizes events extracted from the mother's own text-message history. The original messages are the evidence; every item below quotes its source message so it can be verified.
- It was produced with the assistance of automated (AI) analysis, which can miss or misclassify messages. All counts and percentages are estimates and should be independently verified.
- It covers text messages only — not school, medical, or court records.
- It is an organizational aid, not legal advice and not a substitute for counsel's review.

Overview

Across July 2020 through June 2025, the messages show the mother (Sarah) carrying the majority of day-to-day responsibilities for Emma and Noah, including school enrollment, medical and dental appointments, activities, and religious upbringing, while the father (David) generally took the children on alternating weekends and select holidays. David's involvement increased noticeably beginning in 2022 and continued to expand through 2024 and 2025, including attending parent-teacher conferences, contributing to school and activity costs, supporting Emma's driving and work permit, participating in Noah's Scouts, and taking on more weekend overnights. The period also includes recurring friction points: several cancellations, no-shows, late pickups, missed events, and one extended no-contact period in spring 2021. In January 2025, David formally proposed a 50/50 custody arrangement, to which Sarah responded openly while noting she still carries the bulk of day-to-day care. Communications about the children are predominantly civil and logistical, with cooperation improving over time.

Custody Breakdown

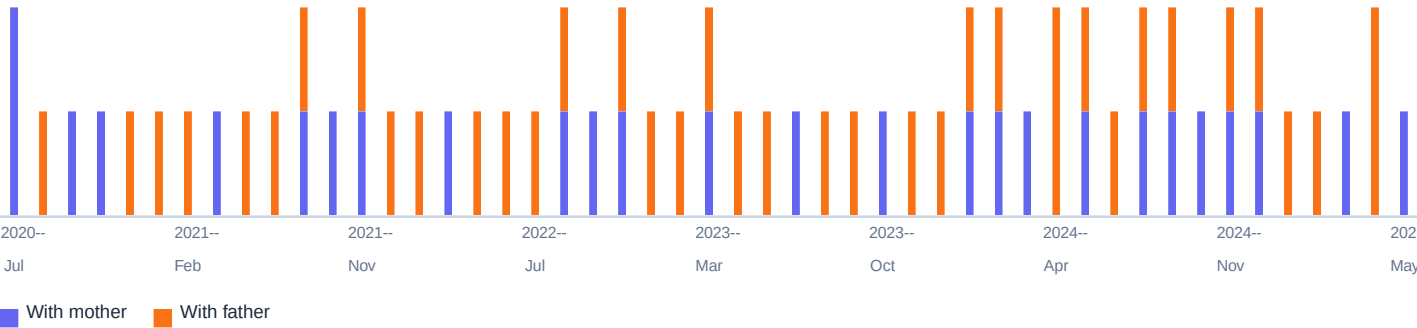

Childcare instances identified — with mother: 26; with father: 38; shared: 0; unclear: 0.

Childcare instances were counted from explicit references in the messages to a parent having the children for a given weekend, week, holiday, or event, then merged across the three analysis windows for a total of 64 instances (26 with mother, 38 with father). Counts reflect what was stated in the transcripts and are best treated as a sample of caregiving references rather than a complete ledger of every day of care; weekends and periods not mentioned in messages are not represented.

Tone of Co-Parenting Communications

The overall tone of communications about the children is businesslike, logistical, and generally civil across the full period. The mother's messages are largely informational and documentary, with factual but pointed notes when the father missed time, was late, or cancelled. The father's messages are brief and transactional, focused on confirming weekends or requesting changes. Cooperation increases from 2022 onward, with more constructive exchanges around shared costs, school involvement, and the January 2025 custody-modification discussion, where both parents expressed openness to mediation. Friction is concentrated around last-minute cancellations and missed events rather than general hostility.

Limitations & Caveats

- 2 The analysis was performed in multiple time-windowed passes and then merged; a communication gap or event straddling a window boundary may be split between windows or under-counted in the totals.
- 2 Counts of weekends, overnights, and caregiving time are derived only from message statements and do not reflect a complete record of actual time the children spent with each parent.
- 2

Some references (e.g., 'have the kids this weekend') do not specify exact start/end times, and some weekends are not mentioned in messages at all.

- ² Message analysis cannot substitute for official school, medical, dental, DMV, or financial records; corroborating documents must be obtained separately.
- ² Some parent-teacher conference scheduling emails are addressed jointly and do not by themselves establish which parent attended.
- ² Where messages reference 'the kids' without specifying both children, it was assumed both were included as written.
- ² Where a sender or parent attribution was unclear, the event was omitted rather than guessed.
- ² Third-party statements (Linda, Coach Reyes, Ms. Thompson) are informal messages, not sworn statements, and their authenticity and full context would need to be verified.
- ² References to payments are not verified by the transcript alone; receipts and statements should be obtained separately.

2025-01-20 13:00 · (email) David Miller	Custody arrangement going forward — Sarah, I have given this a lot of thought. I have been more present this past year - I have kept most of my weekends, handled Emma's driving and job, and taken on some of the school and medical work. Going forward I would like to move to a 50/50 joint custody arrangement for Emma and Noah. I think equal time is best for them. I would like us to discuss this directly, and through a mediator if needed. David

I am open to discussing more time for you, built on the consistency you have started to show. Let's talk, and a mediator is fine with me. Sarah
