

Co-Parenting Communication Report

Prepared by the children's mother · Other parent: Dave

Children: Emma, Liam · Period analyzed: 2019-01-01 to 2024-01-01 · Generated: 2026-05-20 · Analyzed in 6 time windows

Nature of this document — read first

- This report organizes events extracted from the mother's own text-message history. The original messages are the evidence; every item below quotes its source message so it can be verified.
- It was produced with the assistance of automated (AI) analysis, which can miss or misclassify messages. All counts and percentages are estimates and should be independently verified.
- It covers text messages only — not school, medical, or court records.
- It is an organizational aid, not legal advice and not a substitute for counsel's review.

Overview

Across the full period analyzed, the communications show the mother coordinating the large majority of childcare, medical, and school logistics for Emma and Liam. The father cancelled, missed, or asked to reschedule parenting time on numerous occasions, and several stretches show no outreach from him about the children. Multiple third parties describe the mother as the primary caregiver.

Suggestions for Building the Case

2019-11-25

Attachment

An email references a dental invoice attachment — locate and preserve the PDF to show who paid.

2021-10-01

Attachment

A message mentions a photo of the children at the school event — save the original image with its metadata.

2020-07-01

Key statement

The father's message admitting he 'can't take them this weekend' is a strong, dated statement — flag it for counsel.

2022-08-07

Key statement

The maternal grandmother's note that the father 'hasn't visited in weeks' corroborates the pattern of absence.

date unclear

Gather evidence

Obtain the children's official school attendance and report-card records — the messages reference them but they are not in this history.

date unclear

Gather evidence

Request itemized medical and dental billing statements to independently confirm who paid for care.

date unclear

Follow-up

Ask the school to confirm in writing who is listed as the primary emergency contact and who attends conferences.

date unclear

Follow-up

Keep a contemporaneous log of pickups, drop-offs, and missed visits going forward to extend this record.

Tone of Co-Parenting Communications

The tone of co-parenting communication is largely logistical and frequently strained, with recurring friction around the father's missed and rescheduled time.

Limitations & Caveats

- ² This report organizes events extracted from text messages; the original messages are the evidence and must be independently verified.
- ² Automated extraction can miss or misclassify messages; counts are estimates.
- ² The analysis covers text messages only — not school, medical, or court records.
- ² This report was assembled from multiple time-windowed analysis passes; a communication gap spanning a window boundary may be split or under-counted.
